Digital Competence Results

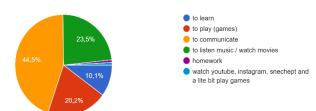

1st Quantitative evaluation

Students from the countries of the project participated in our survey to tell us about their Digital competence also to make us aware of what king of device they use and what reason for. In addition, we wanted to state if they evaluate and filter information or if they use social media in international environment for educational purposes.

Which digital device do you use the most often (you can choose only one)

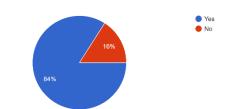

For what do you use digital devices most often? (you can choose only one)

81% of the total number of students use mainly mobile phone for different reasons, the first is to communicate. Only 10% uses mobile phone to learn.

At the question "are you filtering information" a high percentage answer yes.

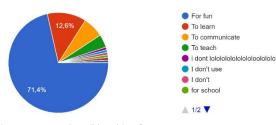

We need to increase the 16% who do not evaluate information.

Are you evaluating information?

119 risposte

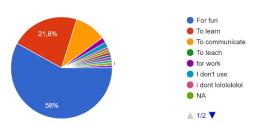

Why do you mostly use programs for editing pictures or photos?

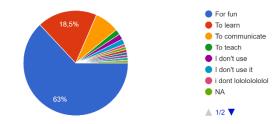

Generally, 45,4 % of students use their devices to learn, which is a good rate.

As far as each program is concerned, the students use them properly enough. They use photo, audio and video editing for fun.

Why do you mostly use programs for editing videos?

Why do you mostly use programs for editing audios? 119 risposte

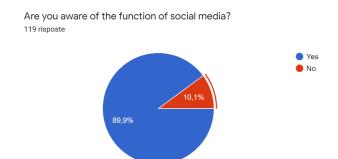

They also use presentation or data process programs mainly to learn.

As for the "Social Media" 1,7% do not know and do not use them. 10,1% is not aware of the Social Media function.

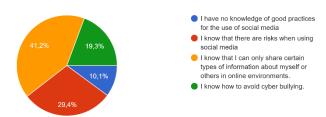

The 10,1% includes the 1,7% who has never used them.

We need to reduce the rate of students (10,1%) who are not aware of good practice in using social media.

Do you have knowledge of good practices for the use of social media? (Fill in the boxes that are applicable)

119 risposte

Do you use social media in an international environment? (Fill in the boxes that are applicable) 119 risposte

As added value and extra result we would increase the rate of the students who use social media in international environment reducing the rate of 29,4% of those who don't actually do it.
